

SAMPLE

How to use

Enable NFC Offer up - Hold card under customers phone or use QR Code

Action - Customer can leave a genuine review on platforms of your choice on their own phone at their premises (important Google signal)

Open the Settings app on your iPhone.
Tap on General, Wallet & Apple Pay, or Control Center, depending on your iPhone model and iOS version.
Tap on NFC, NFC Scanning, or NFC tag reader, and turn it on.

On your Android device, open the Settings app.
Select Connected devices.
Tap on Connection preferences.
You should see the NFC option. Hit it.
Toggle the Use NFC option on.
